Abbe, Cleveland 121

ABSTRACTS

Bannon, J. K.; Variation of temperature in the lower stratosphere above Larkhill and Lerwick 310

– and Gilchrist, A.; Variation of temperature in the troposphere and lower stratosphere 150

Blackwell, M. J.; Five years continuous recording of daylight illumination at Kew Observatory 119

–; On the development of an improved Robitzsch-type actinometer ... 21

Bushby, F. H. and Hinds, M. K.; A preliminary report on ten computed sets of forecasts based on the Sawyer-Bushby two-parameter atmospheric model 310

– –; The electronic computation of two series of 1000-mb., 500-mb. and 1000–500-mb.-thickness forecast charts ... 310

Corby, G. A.; The air flow over mountains: a report on the state of current knowledge 310

Day, G. J. and Murgatroyd, R. J.; The cumulus cloud investigations made by the Meterorological Research Flight, Aug. 4–15, 1952 ... 21

Farquharson, J. S.; Vorticity and synoptic development 150

Goldsmith, P.; Some aircraft and surface meteorological observations made at Khartoum in July 1952 ... 119

James, D. G.; An account of one of the methods employed in the investigations of clear-air turbulence ... 22

Jenkinson, A. F.; The average vector wind distribution of the upper air in temperate and tropical latitudes ... 150

Johnson, D. H.; Diurnal and semi-diurnal oscillations of the lower stratosphere 310

Jones, D. C. E.; Investigation of high-altitude clear-air turbulence near jet streams 22

–; Note on exceptionally severe clear-air turbulence and other phenomena on April 14, 1954 310

–; Weather systems associated with some occasions of severe turbulence in clear air at high altitudes ... 22

Jones, R. F.; Five flights through a thunderstorm belt 21

Lamb, H. H.; Two-way relationships between the snow or ice limit and 1000–500-mb. thicknesses in the overlying atmosphere 183

Lawrence, E. N.; The effects of a wind-break on the speed and direction of wind 22

Murgatroyd, R. J.; A report on the determinations of the speed correction coefficients of aircraft thermometers made by the Meteorological Research Flight in 1951 21

– and Goldsmith, P.; Cirrus cloud over southern England 150

Page

Murgatroyd, R. J. and James, D. G.; Hot-wire anemometers for use on aircraft 21

Sawyer, J. S.; Rainfall of depressions which move eastward near the English Channel 150

–; The rainfall of depressions which move eastward across Scotland ... 183

Scrase, F. J.; Radiation and lag errors of the Meteorological Office radiosonde and the diurnal variation of upper air temperature 183

Sumner, E. J.; The annual and geographical distribution of cold pools 183

Academic successes 61, 94, 158, 190, 254, 285, 318, 382

Addenda 157, 218, 253

Aden, June 1953, High wet-bulb temperatures 59

–, Wet-bulb temperatures in 312

Aerology, Commission for 97

Agricultural Meteorology, Commission for 99

Agriculture, Some applications of meteorology to... 147

Alcock, G. D.; Halo complex, March 2, 1954 186

Altocumulus castellatus from above ... 219

Andrews, R. T.; Forecasts for farmers ... 226

Ashmore, S. E.; Unusual temperatures recorded in fog... 26

Asia, Humidities associated with maximum and minimum temperatures in south-east 271

Atmosphere, Edinburgh, July 16, 1954, Colloquium on the upper 342

–, On the theory of large-scale disturbances in a two-dimensional baroclinic equivalent of the 23

–, The conditions for dynamical similarity of motions of a frictionless perfect-gas 23

–, The restless 154

Averages for Great Britain, New climatological 44

– for other months given average values for January, April, July and October, Estimation of meteorological... ... 74

Bancroft, F. M.; An unusually clear example of lenticular clouds... ... 57

Bannon, J. K.; Classification of upper air temperature according to tropopause pressure 278

–; Note on the subtropical jet stream in January and April 1951 257

Batchelor, G. K.; Conditions for dynamical similarity of motions of a frictionless perfect-gas atmosphere ... 23

Bayliss, J. M.; Optical phenomena observed at Singapore, Aug. 19, 1953 57

Berggren, R.; On frontal analysis in the higher troposphere and the lower stratosphere 83

Berson, F. A.; A quantitative analysis of the evolution of large-scale flow with regard to the effect of eddy motion ... 23

Bibliography and Publications, Commission for 99

LIST OF ILLUSTRATIONS

	Page
Wind-direction recorder	*facing* 16
Wind-direction recorder, showing cam and lever system	*between* 16 *and* 17
Two typical charts obtained from the wind-direction recorder	
Cumulonimbus near Wolverhampton, about 12.30 p.m., May 2, 1953	*facing* 17
Fawley flame from Calshot Castle, August 22, 1952	
Altocumulus from 27,000 ft. at 1502, September 11, 1944	*facing* 48
Lenticular altocumulus clouds, Ballykelly, Northern Ireland, Nov. 29, 1953	*between* 48 *and* 49
Marks left by lightning flash, Chevy Chase Club, near Washington D.C.	*facing* 49
Observations aboard a "selected" ship	*facing* 80 *and between* 80 *and* 81
School parties visiting the O.W.S. *Weather Watcher* in June 1952 and May 1953	*facing* 81
Combined meeting of the Commissions for Instruments and Methods of Observation and for Aerology, Toronto, August–September 1953	*facing* 112
Dust cloud at about 49,500 ft.	*between* 112 *and* 113
Model to illustrate the formation of smoke fog	*facing* 113
Director of the Meteorological Office signing the new agreement on North Atlantic ocean stations in Paris, February 1954	*facing* 136
Loop aerials and console of the new design of radio direction-finder for locating thunderstorms (sferic)	*facing* 137
Contrails and distrails over Cranwell, January 1, 1954	*facing* 152
Frazil ice formation at Shoeburyness, January 25, 1954	*facing* 153
Weather conditions near the centre of a depression	*facing* 168
Precipitation virgae on a showery day	*facing* 169
Corona towards sunset	*facing* 184
Altostratus and cirrostratus near sunset	*facing* 185
Quadrangle of Meteorological Office, Harrow, February 1, 1954, 1650 G.M.T.	
Stratocumulus	*facing* 200
Evening stratocumulus with higher altocumulus near sunset	*facing* 201
Altocumulus castellatus from 18,400 ft.	*facing* 216
Stratocumulus off Cape St. Vincent	*facing* 217
Mr. C. K. M. Douglas, O.B.E., A.F.C., B.A.	*facing* 225
Wind-speed frequency recorder	*facing* 256
Photographs of lightning taken at Acton, Middlesex, during the storms of the night of June 12–13, 1954	*after* 256
Members of the working group on optional codes for Region VI	*facing* 264
Anemogram, Luqa, Malta, 2200 G.M.T., Oct. 15 to 0800 G.M.T., Oct. 16, 1953	*facing* 265
Barogram, Luqa, Malta, 1800 G.M.T., Oct. 15 to 0900 G.M.T., Oct. 16, 1953	*facing* 265
Barogram, Qrendi, Malta, 1800 G.M.T., Oct. 15 to 0900 G.M.T., Oct. 16, 1953	*facing* 265
Anemogram, Hal Far, Malta, 2200 G.M.T., Oct. 15 to 0800 G.M.T., Oct. 16, 1953	*facing* 265
Distortion in a condensation trail, Wick, 1030 G.M.T., March 2, 1954	*facing* 280
O.S.V. *Cumulus* as seen from O.W.S. *Weather Watcher*	*facing* 281
Capt. Ford of *Weather Watcher* and Capt. Groen of *Cumulus* with some of their staffs aboard *Cumulus* at station J	*facing* 281
Facsimile apparatus for transmitting charts by radio or land-line	*facing* 304
Forecast upper air chart at 500 mb., 0300 G.M.T., March 2, 1954	*between* 304 *and* 305
Surface chart, 0600 G.M.T., December 29, 1953	
Surface chart, 0900 G.M.T., March 15, 1954	
Facsimile transmitting and recording room, Central Forecasting Office, Dunstable	*facing* 305
Memorial tablets at Kew Observatory	*facing* 336
Photographs of the eclipse taken from a Canberra aircraft in the belt of totality at about 45,000 ft.	*between* 336 *and* 337
Altocumulus	*facing* 337
Barogram from the Veterinary Laboratory at Weybridge, Surrey, showing the record of the occurrence of a supersonic bang	
Meteorological section at Camphill, Derbyshire for the World Gliding Championships	*facing* 368 *and between* 368 *and* 369
Orographic cloud over Ailsa Craig	*facing* 369
